OKOLONA, MISSISSIPPI, THURSDAY, MARCH 17, 1881.

Ague Cure

Is a purely vegetable hitter and powerful tonic, and is warranted a speedy and
certain cure for Force and Ague, Chilis
and Fover, Intermittent or Chill Fever, Remittent Fover, Dumb Ague,
Periodical or Billious Fover, and all
malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirs,
lessitude, loss of appetite, pain in the back
and boins, and coldness of the spine and
extremities, are only premountains of
acverse symptoma, which terminate in the
ague parvexyem, succeeded by high fever
and profuse perspiration.

It is a startling fact, that quintine, arse-

agus parcaysin, succeeded by high lever and profuse perspiration.

It is a startiling fact, that quinties, arsenic and other poisonous minerals, form the besis of most of the "Fever and Agus Preparations," "Specifica," "Syrups," and "Tonics," in the market. The preparations made from these minoral poisons, although they are palatable, and may break the chill, do not cure, but heave the maintial and their own drug poisons in the system, producing quintiem, Genthesis, ringing in the cars, headache, vertigo, and other disorders more formidable than the disease they were intended to cars, Axan's Anun Cyas thereughly eradicates there were intended to cars, and always cures the securest cases. It contains no quintie, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, alove its certainty to care, is that it leaves the system as free from disease as before the attack. Ivanuoz No. 10, meets fourth Thursday sight in each menth. J. S. CAIN, E. C. Okolova Chapter No. 27, meets second Thurs-tay night in each month. T. W. Williams, H. P.
